keeping the information flowing

What's included in each Band?

Included in every CNS Customs Access band is:

- Access to the CNS Customs Access product. This means that you can submit import, export and supplementary declarations using declaration software from a provider of your choice. We will also give you direct screen access to CHIEF via our CHIEF HCI product, providing you with an additional tool with which you can manage your declarations.
- Band A for example offers 100 EU export frontier declarations. This means that you can submit up to export 100 declarations every month to clear your export goods, at no additional cost to you.
- A combination of EU import and export supplementary declarations, dependent on the amount shown in the **"Included Import or Export Supplementary Declarations"** column of the respective band.
 - Rest of World (ROW) declarations will be charged as per the standard Maritime Tariff of £2.44 per UCN.

Which tariff band is right for me?

To select which tariff is right for you, you'll need to know if you'll be submitting more than 100 import and/or export supplementary declarations per month:

- If you will **not** be submitting more than 100 import / export EU Frontier or supplementary declarations per month then the Band A is the right product for you.
- If you will be submitting more than 100 import / export EU Frontier or supplementary declarations per month then you will benefit from subscribing to B and D, dependent on the exact number of supplementary declarations you predict you will need to submit.

Please note any included messages must be used in the same calendar month and may not be carried over.

Standard payment terms

Invoices are payable by Direct Debit which will be collected 30 days after the invoice date.
